

Dear Valued Client,
At long last spring is here, and what a beautiful spring it is!

Recent Projects

Some of the recent projects I have been working on are the Harlequin Rugby Club. One of the main features is the Victorian facade that has been given a new lease on life with rich heritage colours. The before and after photos can be seen below.

Before

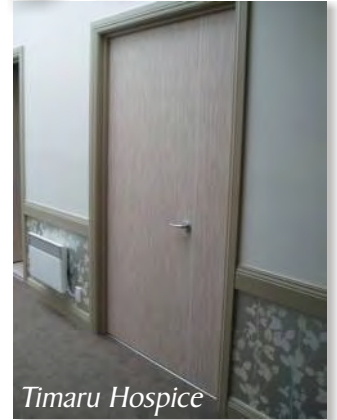

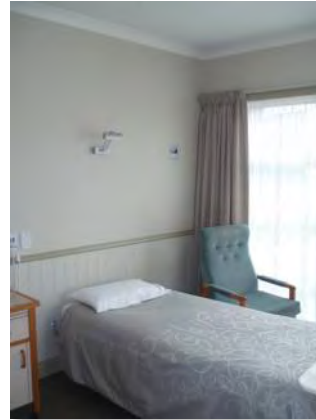

After

Also, the Timaru Hospice was opened with a ceremony by Prime Minister John Key on the 3rd of July.

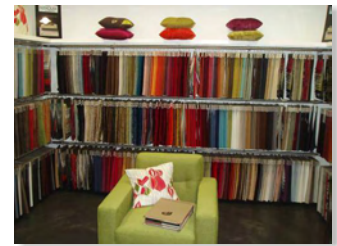

I felt very honoured to be able to donate design services to South Canterbury Hopsice. From the wonderful comments I received on the day, everyone seems very happy with the final outcome. Speaking for myself, it is a great relief and a foundation of support to have such a fantastic building and staff at our disposal.

Timaru Hospice

Auckland Trade Show

In July, I made a trip to Auckland for a national trade show to see all the new and exciting products that are coming onto the market for the spring. While I was there, I had the opportunity to speak with Trelise Cooper about some of the new fabrics and colours that she is including in her curtain range.

Trimmings Sale

While I was in Auckland, one of the main companies providing Passementeries (trimmings, tiebacks and tassels) was having a stocktaking sale. I have brought back a fantastic selection of these at rock bottom prices. They are ideal for furniture keys, brightening up cushions and revitalising curtains.

Please feel free to ring and make an appointment for my design services, including a fresh exterior colour scheme for you including the coloured photo of your house or property, specifications, and large A4 sheets of the colours. As always quotes are free of charge.

Civil Defence

A small favour to ask of you. If you would have the time to help deliver the Civil defence brochures in your own street or other areas that you may like to walk around. Please ring Emma Pye 687 7200 to find out more.
