

Dear Valued client,

Thank you for all your support this year; it has been another busy year for us, with some very large projects to work on. We want to wish you a very Merry Christmas and a happy and prosperous new year for 2011.

STRATHALLAN LIFECARE

We have had a wonderful opportunity to design the interior and exterior of the new sub division as well as supplying the curtains and furniture for the project here in Timaru.

We will look forward to showing you photo's of the finished product next year.

NEW STAFF MEMBER

In the last 3 months I have employed a talented young interior designer, Eve Anderson. Eve qualified in Christchurch and spent two years working for Design Resource before moving south to be with her partner, New Zealand Olympian Marc Ryan. Eve hopes her enthusiasm for design will rub off on our clients.

Eve said it was important that interiors that are aesthetically appealing also provide functional environments.

Her two years working in Christchurch have given her a wealth of fabric knowledge to offer.

Design Resource is an exclusive library resource for designers and architects to access fabrics, wallpapers and design products that have been sourced from all over the world.

Eve said she considered herself to be extremely flexible in her design styles.

"I do have a strong appreciation of Scandinavian design and furniture and I enjoy modern contemporary designs, urban styles and eclectic design.

"I love exploring organic shapes and forms."

Eve said she would encourage the use of raw and natural materials and embracing green thinking and practices where possible and feasible.

"I appreciate the need for an increased awareness of our environment and reducing our carbon footprint."

She was also happy to be back in South Canterbury having grown up on a farm in Albury and attended Mackenzie College.

She was also an excellent sportswoman excelling at athletics and ice hockey, having represented New Zealand in ice hockey with the Ice Fernz for a number of years.

ECO EVENING

Because Eve and I are very keen to encourage the use of eco textiles we are going to have a Eco evening here at the studio early next year. We are lucky enough to have a special guest visiting for the evening; Colin Ackroyd from Hemptech will be here to share his knowledge about Eco fabrics. A lot of people are becoming more aware of the pressures and strains our environment is constantly under. When it comes to your home, people now have more of a choice about what they are buying, how it is made and what it is made out of.

We will keep you posted about a date for this evening, but if you would like to register your interest please contact us.

FACEBOOK

As a way of keeping in touch with each other we now have a facebook page for "Deborah Still Interior Design". We are finding this a great way to let you quickly know about specials or items of interest.

We would love you to "like" us on facebook if you are a member so that we can keep in touch with you.

HOLIDAY HOURS

The studio will be closed from 12pm of the 23rd of December, and opening back up for the New Year on the 10th of January.
